

No Laybrook Landfill

Issue 2

1st March 2009

Welcome

Welcome to Issue 2 of our newsletter. The number of people registering on the website is increasing daily so the good news is that word is spreading.

We have had some great media interest in recent weeks so please do log on and check out the new 'Media Coverage' section of the website. For those with little time to spare we have added a 'Fast Facts' button on the homepage which gives key campaign information.

One campaigner has been working hard to gather data on road traffic accidents along the B2133. The results are pretty shocking and can be found under 'Photos & Maps' in 'The Campaign' section of the website.

Thank you for your continued support!

Current Status

West Sussex County Council is yet to validate the planning application. However, we understand that they are about to do so and that the public consultation period will then last for eight weeks.

We will update the website as soon as we have more information.

Get ready to object!

Facebook Expert?

We don't currently have any experts on social networking sites in the campaign team and we could therefore be missing out on a great awareness building opportunity.

If you think you can help, please email us at: thakehamva@yahoo.co.uk

Thank you to those of you who have already linked No Laybrook Landfill to your Facebook page!

Volunteers Needed

Once WSCC have validated the planning application, we will be 'door-stepping' the local area to ensure that everyone is aware of the landfill proposal and to provide details of what they need to do to formally object.

We are looking for volunteers to help. You will be allocated a team leader who will provide all the information and support you need.

Please email thakehamva@yahoo.co.uk if you are willing to help.

Banner Success

Due to high demand, we have a further 100 campaign boards on order from the Sign Shop.

At only £4 each you can purchase these directly from the Sign Shop in Storrington.
